Fraud, Security & Risk Management Summit: New York

February 13, 2024

2023 Retrospective + 2024 Overview

About ISMG

Each of our global media properties provides education, research and news that is specifically tailored to highly regulated industries including banking, healthcare and the public sector; geographies from North America to Southeast Asia; and topics such as data breach prevention, information security and risk management, and fraud prevention. Our global events series connects senior security professionals with industry thought leaders to find actionable solutions for pressing cybersecurity challenges.

Scott Roberts of Coinbase, Joshua Hillsbery of Washington Department of Revenue, and Michael Bray of The Vancouver Clinic share their insights during the "Unlocking the Potential of the Modern CISO" Panel, moderated by Sean Murphy of BECU.

Anna Delaney, ISMG moderates a Post-Quantum Cryptography panel with Milos Pestic of ABB Accelleron and Ivan Milenkovic of Webhelp.

Why Attend?

Industry Trailblazers

Immerse yourself in the expertise of industry leaders actively shaping the cybersecurity landscape. Gain insights from those at the forefront of innovation and leadership in the field.

Timely, Dynamic Content

Dive deep into discussions and sessions tailored to address the cutting-edge of cybersecurity challenges. Flex your problem-solving skills in the interactive Solution Room Workshop, or ask questions you have been grappling with in your day-to-day. Meticulously curated event content draws from a global community of InfoSec leaders for immediate applicability to your role.

Various Ways to Engage

Elevate your experience with exclusive access to mainstage insights, interactive and hands-on sessions, exhibit hall networking, peer-to-peer meetings, and more. Don't miss your chance to be a part of an environment where meaningful connections and knowledge exchange thrive.

Strategic Networking Opportunities

Join a select gathering of senior industry professionals focused on fostering meaningful connections, sharing insights, and staying ahead with innovative cybersecurity solutions. Network with peers who, like you, are dedicated to advancing with the latest in industry developments.

Global Industry Insights

Tap into a wealth of industry expertise curated by our 36+ ISMG global media sites. Our editorial & content teams have their finger on the pulse of what matters most to cybersecurity professionals, guiding our session and topic selection. Benefit from exclusive insights sourced from our extensive global subscriber network.

Summit Overview

The ISMG Fraud, Security & Risk Management Summit dedicates a full day to advancing cybersecurity education among leaders and delivering enlightening sessions that encompass a diverse range of essential subjects.

Among the highlights will be a comprehensive exploration of incident response strategies during the hands-on and engaging “solution room” exercise. This activity tests the abilities of CISOs and cybersecurity leaders as they devise response strategies for a worldwide cybersecurity incident.

Join us for an in-depth look at pressing topics such as the technical landscape of AI, budget management, the shifting culture in cybersecurity, and more. As cybersecurity leaders strive to maintain equilibrium in a rapidly evolving landscape, the summit offers guidance on finding balance in times of change, reinforcing the notion that a steady hand at the helm is vital in safeguarding digital landscapes.

Sessions will cover a range of topics, samples below:

- AI
- Payment Security
- Identity Management
- End Point Protection
- Incident Response
- Ransomware
- API Security
- IoT
- Fraud Prevention and Threat Intelligence
- Third Party Vendor Risk Management

Tom Field, Senior Vice President, Editorial, ISMG kicks off the event and sets the stage for a day of meaningful dialogue and education.

Don Gibson, CISO, Kinly discusses the opportunities and challenges of building a security program from scratch, including the initial pushback he received and his efforts to win “hearts and minds.”

Grant Schneider, Senior Director for Cybersecurity Services, Venable LLC delves into new U.S. Cybersecurity Strategy released in early March 2023.

In this exclusive Keynote Address, Katie Jenkins, EVP and CISO, Liberty Mutual discusses how to inspire an enterprise to change its entire cybersecurity mindset.

Advisory Committee

ISMG's Summit Advisory Committee is made up of distinguished contributors with comprehensive expertise in cybersecurity, risk management and prevention of fraud. When it comes to shaping an event agenda that captivates and educates, the Committee curates a program that not only informs but also engages the audience.

- **Networking:** Connect & Engage with your Peers
- **Solution Room:** Participate in a Hands-On Workshop Session

Keynote Address

Renowned privacy attorney, David Holtzman of HITPrivacy LLC, closes the 2023 ISMG Healthcare Cybersecurity Summit by discussing safeguarding healthcare cybersecurity.

Join us in kick-starting the Summit at the Keynote Address, where ISMG Summits proudly showcase the preeminent thought-leaders and educators in the security space. Immerse yourself in the wisdom and insights shared by the “who’s who” in cybersecurity. Gain unparalleled perspectives, strategic foresight, and innovative approaches that will set the tone for the entire summit, empowering you to navigate the ever-evolving landscape of cybersecurity with confidence.

In this dynamic Keynote Address, Susan Koski (PNC), William Beer (Accenture), and Paul Leonhirth (Palo Alto Networks) discuss how to protect financial services in an era of increased cyber turbulence, kicking off the 2023 Financial Service Cybersecurity Summit

Networking

Expand your network by meeting with industry peers and leading solution providers to discuss the core challenges shaping the industry. Explore dynamic tools and strategies that are swiftly adapting to address these challenges head-on.

Forge invaluable connections at ISMG events, meticulously designed to foster meaningful interactions among leading security experts, business leaders, and practitioners. Engage in dedicated networking opportunities with vibrant conversations, exchanging real-world insights, and cultivating relationships that extend beyond the event. Elevate your professional network by connecting with like-minded peers, creating opportunities for collaboration, and staying at the forefront of industry advancements.

Discover how your peers navigate unique cybersecurity challenges in their roles.

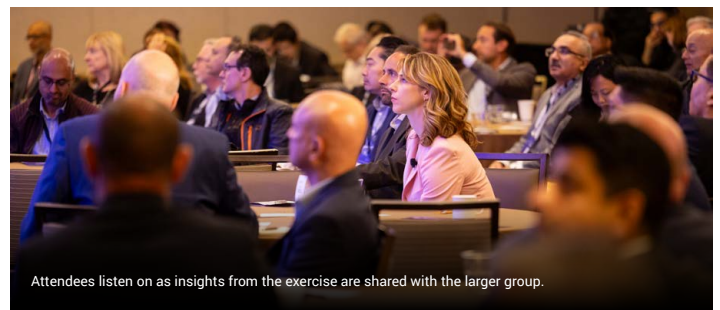

Solution Room Workshop

At the 2023 ISMG Summit, participants engage in dynamic discussions unraveling the complexities of a simulated Business Email Compromise Attack. Together, they explore best practices, innovative solutions, and strategic responses, navigating the intricate twists and turns of cyber resilience.

Experience the Solution Room Workshop, where cybersecurity leaders join collaborative tabletop discussions for a hands-on session. Dive into a fictitious global cybersecurity scenario, and work with your peers to tackle identical sets of questions as the scenario unfolds with unexpected twists. Gain practical insights and enhance your incident response strategies through this dynamic, interactive experience.

Attendees listen on as insights from the exercise are shared with the larger group.

Sign up to access exclusive cybersecurity courses at CyberEd.io

What makes CyberEd.io different?

Drawn from CISOs

All of our coursework is drawn from real-world experience, shared by CISOs who understand the challenges faced by enterprise security teams.

Curated by Practitioners

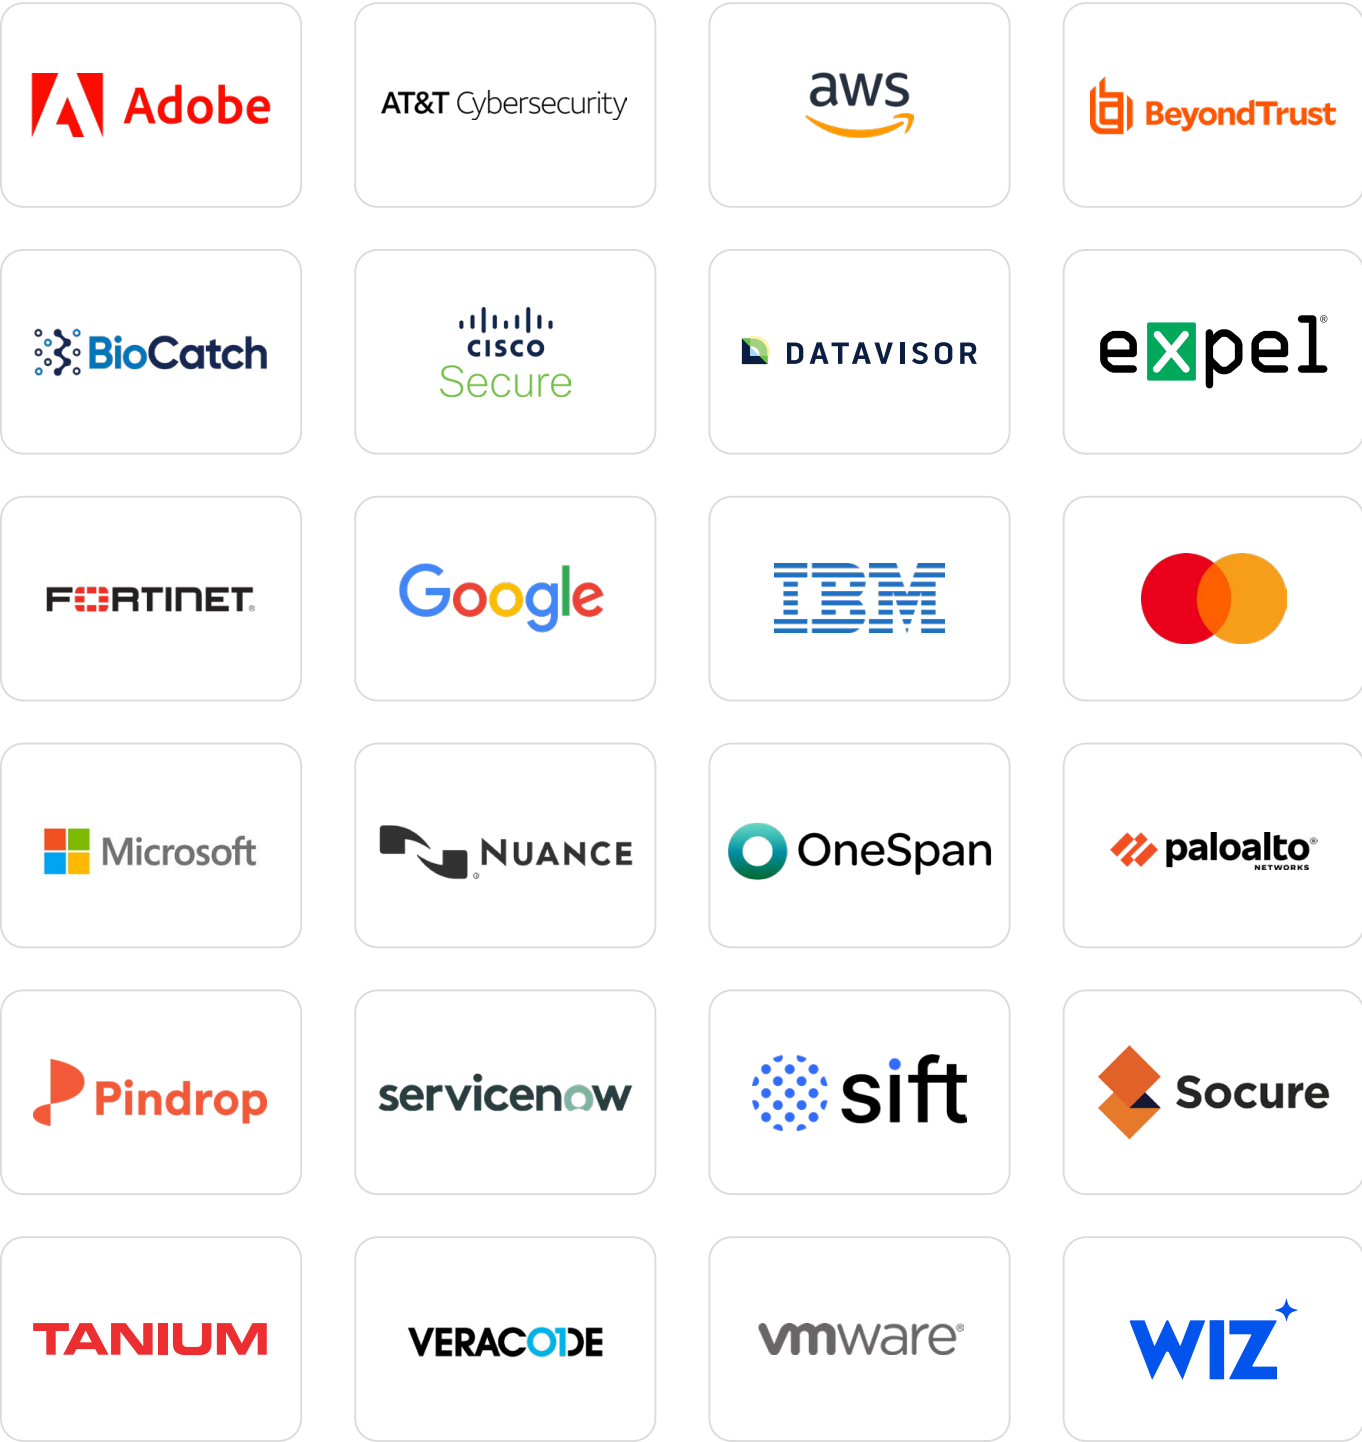

Passionate practitioners curate our courses and learning paths to make sure they're structured in a way that works well for you and your organization.

ISMG Heritage

Education must be both comprehensive and practical. Our students receive both, which prepares them to meet the cybersecurity challenges of today.

Meet with the Who's Who of Cybersecurity Vendors
